Sample Test: SAFe® 4 Agilist

This sample test provides example (not actual) content and format of the questions that will be on the certification exam. Performance on the sample test is NOT an indicator of performance on the certification exam and this should not be considered an assessment tool.

1. What is the connection between feedback and optimum batch size?
   A. Lack of feedback contributes to higher holding cost.
   B. Feedback and batch size are generally not connected.
   C. Small batch sizes enable faster feedback with lower transaction costs.
   D. Large batches reduce transaction cost and provide a higher return on investment.

2. What should be directly funded to implement Lean-Agile budgeting?
   A. Features
   B. Cost centers
   C. Value Streams
   D. Strategic Themes

3. What is the primary goal of decentralized decision-making?
   A. Reduce Cost of Delay
   B. Resolve dependencies
   C. Increase employee satisfaction
   D. Minimize Work in Progress (WIP)

4. What does SAFe® Principle #3, "Assume variability; preserve options," enable?
   A. Better economic results
   B. Specification traceability
   C. Up front design of systems
   D. Stronger Definition of Done

5. What is a result of shorter queue lengths?
   A. Lower quality
   B. Increased risk
   C. Less variability
   D. Longer cycle times

6. Which statement is most accurate about the Program Vision?
   A. It expresses the strategic intent of the Program.
   B. It drives the allocation of budget for the Agile Release Train.
   C. It summarizes the team PI Objectives for the current Program Increment.
   D. It provides an outline of the Features for the next three Program Increments.

Continued…

7. What Definition of Done is required for the Team Demo?
   A. Release
   B. Working system
   C. System Increment
   D. Program Increment

8. What is the primary purpose of Strategic Themes?
   A. Determine the order in which Epics should be executed.
   B. Drive incremental implementation across the enterprise.
   C. Connect the portfolio to the enterprise business strategy.
   D. Define the sequence of steps used to deliver value to the customer.

Answer Key:
1. A
2. C
3. D
4. A
5. C
6. A
7. B
8. C
